STRATEGIC CYBER

Engaging minds for a secure
Australia

The National Security College is a joint initiative of the Commonwealth Government and The Australian National University.

Professional development course

Advancing cybersecurity is a top national priority and protecting Australia's interests from diverse threat actors is a responsibility shared between the public and private sectors.

Join us to examine current and emerging trends and challenges of the geopolitical landscape we face and explore how the next generation of critical technologies will shape Australia's interests in cyberspace.

In this program, you will be provided with the opportunity to engage with some of Australia's cyber policy and operational specialists, across government, academia and the private sector.

Venue

National Security College

#132 Crawford Building,

1 Lennox Crossing

The Australian National University

Course date

9am 8 February – 5pm 9 February 2024

Topics

- Australia's security challenge: the geopolitical landscape.
- Cyber warfare
- Operationalising Australia's Whole of Nation approach.
- Cyber, critical technology and the future.
- Red Team - Blue Team activities.
- Australia's national cyber security strategy.

Learning Objectives

By the end of the program, participants will be able to:

- explain current and emerging cyber and technology challenges impacting on Australia's national interests;
- discuss the whole of nation approach to cyber security and resilience; and
- discuss the benefits of adopting a whole-of-system approach to strategic policy design.

Cost

\$2250 for PAC agencies (GST free).

\$2700 for all others
